OBJECTIVE

The SPCRS 2015 Symposium aims to provide contemporary updates and advances in prevention and cardiac rehabilitation in Singapore, and a platform for strategic collaborations and sharing among healthcare professionals in the field.

WHO SHOULD ATTEND

Medical and Healthcare Professionals & Students, Researchers and Academics.

For foreign delegates, please visit Singapore Immigration & Checkpoint Authority’s website (www.ica.gov.sg), if you are uncertain about entry visa requirement for Singapore.

TOPIC HIGHLIGHTS

- EUROASPIRE: What’s the Lesson Learnt, and Should Singapore Nationalise a Mandatory Cardiac Rehabilitation Programme for CAD Patients Post-Revascularization
- Development of Home-based Cardiac Rehabilitation and Utilization of Remote Telemedicine: Bane or Boon to Traditional Model of Cardiac Rehabilitation
- Challenges of Providing Cardiac Rehabilitation Services: Perspective from Hong Kong

CALL FOR ABSTRACTS

The 9 best eligible abstracts will be selected for the Oral Presentation. Prizes will be awarded to all presenters as first and merit prizes within the respective tracks. The closing date for abstracts submission is 31st August 2015, and abstracts are to follow the themes of:

- Medical & Pharmacological;
- Physical Activity & Nutrition; or
- Psycho-social
